

## **MONA LISA ROBBERY**

An extremely serious ROBBERY occurred : The «Mona Lisa» has been stolen at the Louvre Museum.

Even if it's not a CRIME, it's an extremely serious scandal. That's why the director of the museum has been interviewed by a lot of journalists.

Pupils have decided to prove that they are not the CULPRITS. They agree with the SUSPICION of INSPECTOR Guérin : Mona Lisa might have been stolen by the director of the Louvre Museum.

In order to demonstrate this conjecture, they quickly gather some CLUES.

After one week of researches, they collected a few TRUE STATEMENTS that could be useful for their INVESTIGATION.

Using these true statements, they made DEDUCTIONS that allow them to find interesting middle CONCLUSIONS.

In order TO PROVE to the inspector that they are not GUILTY, they have to present the whole of their DEMONSTRATION in a clear and structured way.
