How We Test 58

Find out how products perform with our comprehensive tests

Budget PCs 68

Not everyone needs a super-powerful PC, especially if you won't be using it for editing HD video, for example. This month we've rounded up 10 of the best-value PCs we could find, starting from just £250 and rising to £350. We also explain how to add a 22in Full HD monitor to the basic package for as little as £110

Projectors 78

Get the full cinema experience on a big screen with one of these HD projectors. With prices starting at around £600, there's something for pretty much every budget

PC speakers 88

Whether you're looking for a pair of stereo speakers or an immersing surround-sound experience, you'll find the right set in our roundup of 12 speaker sets for PCs

Interchangeable-lens cameras 98

Whether you're an enthusiastic amateur or a serious professional, these cameras with changeable lenses will let you shoot stunning photos and HD video

Power to the people 108

Imagine a world where you never have to charge your phone again. Mike Bedford finds out how science is finally making this dream a reality

Fact or fiction? 112

Ever wondered if all those stories you've heard about computers are true? Simon Handby investigates to find out what the truth really is

Be your own broadcaster 116

If your PC is stuffed full of digital photos, videos and music, Julian Prokaza can show you how to release it into your home, car and beyond

How To... 120

- Keep abreast of the news with RSS feeds 120
- Plan a project online 121
- Get more from Twitter with TweetDeck 122
- Save web clippings 123
- Track home finances 124
- Block sites with OpenDNS 125
- Play the Game of Life 126

How It Works 128

Simon Handby gets to grips with the inner workings of spelling and grammar checkers

Web Expert 130

In the second part of our Google Webmaster Tools series, Matt Preston explains how to find out which areas of your site are the most popular, and check whether it's been hacked

Multimedia Expert 132

Ben Pitt explains how to give your audio recordings a professional touch by using mastering techniques including EQ, compression and limiting

Linux Expert 134

David Ludlow shows you how Ubuntu One lets you securely back up entire folders online, access them from any computer and share them with friends

Advanced Projects 138

Give your wireless router a boost with the help of the DD-WRT open-source firmware and David Ludlow's in-depth guide to adding new features to your WiFi

Helpfile 140
