This book was created for two purposes. First, after spending more than two weeks in Costa Rica, I had an abundance of images to share. I hope that you too can get a chance to explore this amazing country. Second, this book was created to help illustrate the capabilities of iBooks Author from Apple. About the Author Richard Harrington is on the forefront of the merger of photography and video. He is both a photographer and video pro, and combines his love of both into his professional career. Rich owns the company RHED Pixel, a visual communications company in Washington, DC. He has been a certified instructor for Adobe, Apple, and Avid. He regularly blogs at his personal blog (www.RichardHarrington.com). Rich is a member of the National Association of Photoshop Professionals Instructor Dream Team, and a popular speaker on the digital video circuit. He has been the Program Manager and Technical Chair of the National Association of Broadcasters since 2003. Rich is an internationally published author. His book, Photoshop for Video, was the first of its kind to focus on Photoshop's application in the world of video. He is also author of several books including From Still to Motion: A Photographers guide to creating video with your DSLR, Creating DSLR Video, Understanding Adobe Photoshop, and An Editor's Guide to Adobe Premiere Pro. Rich also has several courses available at Lynda.com. A Master's Degree in Project Management fills out Rich's broad spectrum of experience. Rich enjoys traveling and digital photography, as well as teaching his kids the joys of science fiction and comic books. About the Images All photos are by the author, Richard Harrington. The images were made while visiting Costa Rica for two weeks in 2013. The images are copyrighted and may not be used outside of this book or its related educational class.
