History's not what it used to be. Ariyl Moro, the gene-powered Amazon from 2109 A.D., drags David Preston, archaeologist, back to ancient times to help her fix some broken historical events. But after an epic night together, Ariyl vanishes, leaving David her Time Crystal . . . and a clue that might lead him back to her . . . in the camp of a Mongol warrior princess . . . or a harem in medieval Baghdad . . . or a monstrosly mutated 1950s America. Sci-fi meets romantic comedy...with sword-swinging adventure! Note to readers: This book makes the assumption that climate change is not a hoax and anyone who thinks it is, is not qualified to be President. If you disagree, this is definitely not the droid you're looking for.
