

## How to create your Cultural Diary ?

This year, in your LLCE class, you will have to create a cultural diary which will be a sort of journal/diary of everything important you do in class of course, but it will also contain elements of English-speaking movies/ series / books/ comic books that you will encounter in your free time. This diary will be important to get you ready for next year's exams.

- \* Your cultural diary will be collected by your teacher and assessed/ graded at the end of each chapter.
- \* Your cultural diary will be divided in several parts, each part will correspond to a theme/ a topic studied in the chapter.
- \* The presentation of your cultural diary is entirely up to you but you will definitely need the following ingredients :

1. The title of the chapter / the topic(s) studied and the cultural theme it refers to (L'imaginaire ou Rencontres).
2. **The list of the different documents** (pictures, texts, videos...) studied in the chapter and a classification according to your tastes:

The documents I really liked	The reasons why I really liked them
1.	
2.	
3.	

The documents I didn't particularly like	The reasons why I didn't really like them
1.	
2.	
3.	

3. You will add **2 or 3 personal documents** (extracts from TV series, movies, extracts from novels, short stories, comic books, articles, Youtube videos, paintings, poems) that **MUST come from the English-speaking world** (USA, UK, Australia, India, New Zealand, Canada....). You will present your personal documents briefly and **explain why you think they would be a good addition** to this chapter (similarities in genre, topic, problematic issue etc).
4. Last but not least, as a conclusion, you will give **a definition/ a summary of the genres / topics / themes evoked in the chapter** and **your opinion about it** (was it difficult ? interesting ? controversial ? completely new to you etc ?). You can also mention the new things you learned about the English-speaking culture thanks to this chapter.

**⚠** Keep in mind that this work can be a bit long to prepare ( especially the « hunt » for personal documents), so get **ORGANIZED** and try to write your ideas all along the chapter and not AT THE VERY LAST MINUTE !
