**Read the weather forecast and draw the symbols on the map. Don't forget the temperatures :**

This is today's weather for the British Isles. In the north, in Scotland, it is snowing and the weather is extremely cold, around three degrees. In the center and the north of England it is raining and the temperature is rather cool, about 10 degrees. In the west, in Wales, it is very cloudy. Even further to the west in Ireland there will be strong winds. The weather today is awful all over Great Britain.

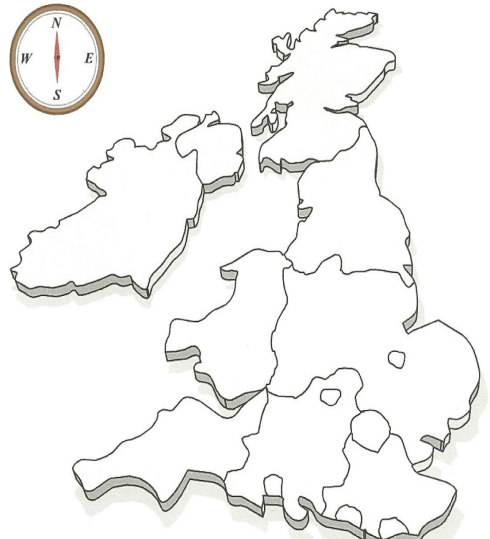

Tonight there will be storms on the east coast of England and Scotland. Tomorrow in the south west and the south east of England it will be quite warm and very sunny.
