

## Express one's opinion

**Read the following text : Here are some opinions about differences between people**

Simon : “well, in my opinion, a lot of people have prejudice about disable people!”

Jake : “To my mind they fear to be in contact with those people.

Paula : I **agree** with you, Jake. Most of the people don't feel at ease when they are with disabled people. But I don't agree with the fact thy they are scared”

Demy : “In my view, people should stop to have a negative feeling about the disabled people. I guess they do so because they don't have one in their family”

Simon :” I suppose that it's true, yes.”

Britney : “I think Demy is right.”

Demy : “I believe it's right too. But they should think of what the disabled people feel and just welcome them as they deserve!”
