

Hypnotized

[Purple Disco Machine](#), [Sophie And The Giants](#)

Feel buried alive, this city is airtight
Suffocatin', lonely in the crowds
I'm surrounded by all the screens of their lies
Screamin' into space to drown them out

I fell down so low, found nowhere to go
But I know you wait for me
You wait for me
So far out of sight, stepped into the white
But I know you wait for me
I'm comin' home, I'm comin' back down tonight

'Cause I've been hypnotized by the lights
But I'm comin' home, I'm comin' back down tonight
Yeah, it's taken time to realize
But I'm comin' home, I'm comin' back down tonight

So hold me tight, I just wanna fade out
Somewhere we can shut the world away
I'm ready to hide far from the fallouts
They won't find us in the paradise we'll make

I fell down so low, found nowhere to go
But I know you wait for me
You wait for me
So far out of sight, stepped into the white
But I know you wait for me
I'm comin' home, I'm comin' back down tonight

'Cause I've been hypnotized by the lights
But I'm comin' home, I'm comin' back down tonight
Yeah, it's taken time to realize
But I'm comin' home, I'm comin' back down tonight
I'm comin' home, I'm comin' back down tonight
I'm comin' home, I'm comin' back down tonight

Free fallin' from the high
I'm followin' the voice I know
Free fallin' from the high
I'm comin' home, I'm comin' back down tonight

'Cause I've been hypnotized by the lights
But I'm comin' home, I'm comin' back down tonight
Yeah, it's taken time to realize

But I'm comin' home, I'm comin' back down tonight
I'm comin' home, I'm comin' back down tonight
I'm comin' home, I'm comin' back down tonight
