

CLASSE CP

Mesure de masse

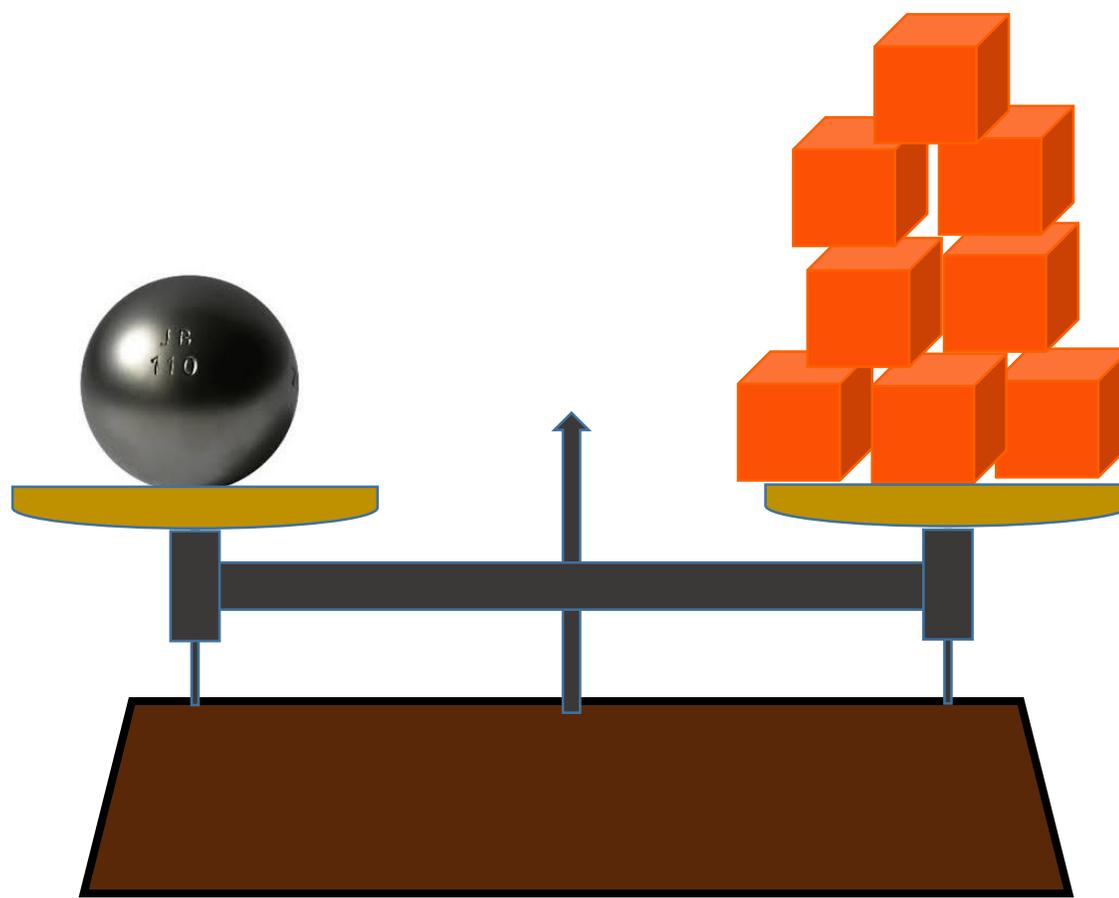

Pesée avec des unités « naturelles »

CHERCHER MODELISER REPRESENTER RAISONNER CALCULER COMMUNIQUER

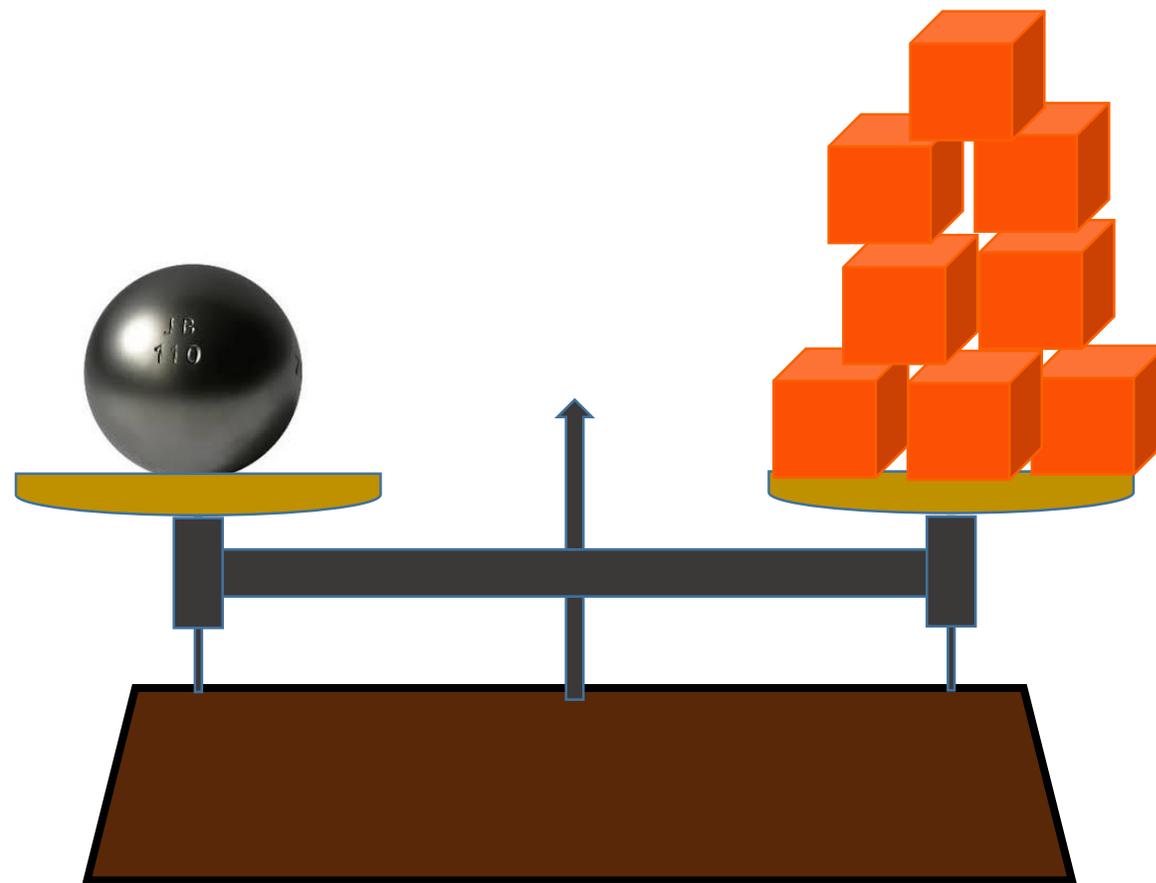

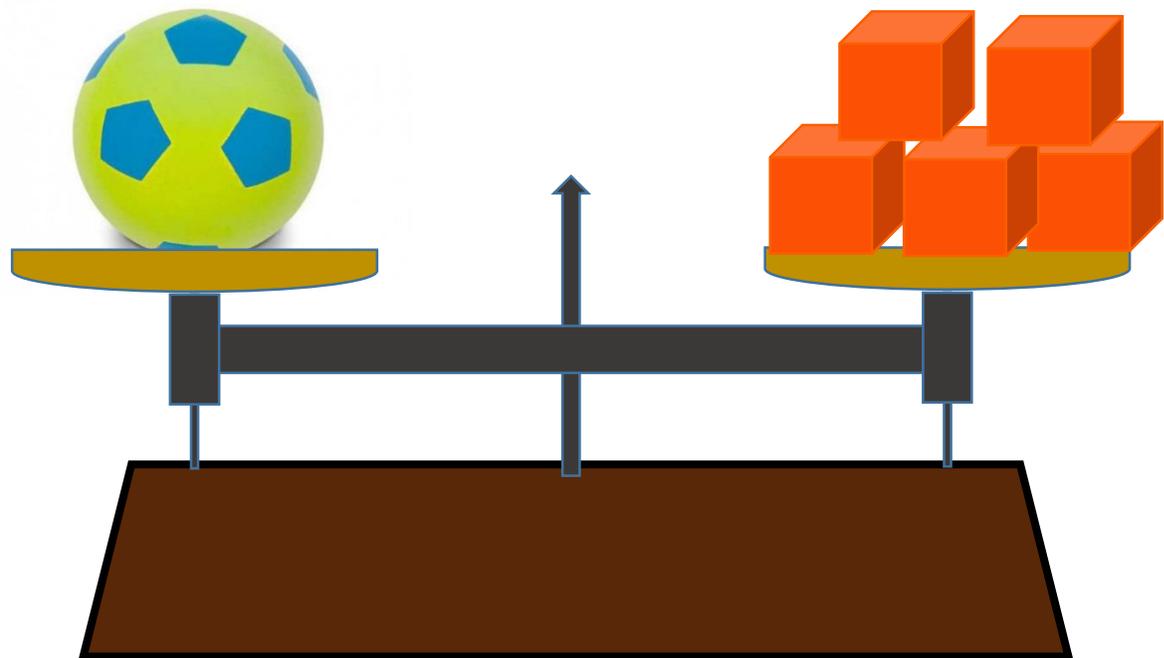

Quelle est la masse
du ballon en unité cube ?

Le ballon pèse 5 cubes.

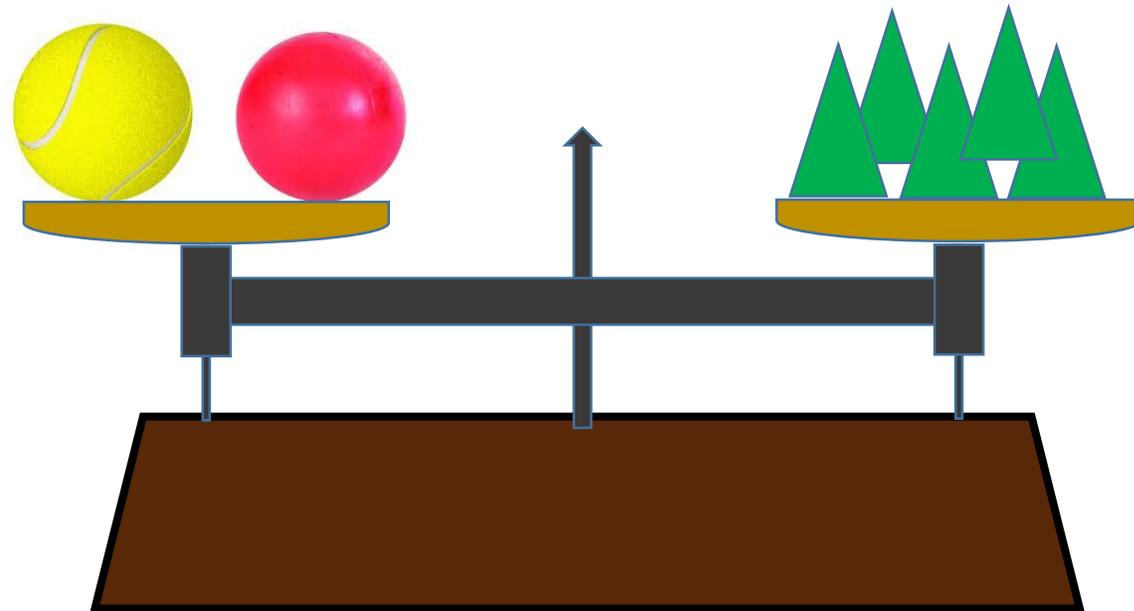

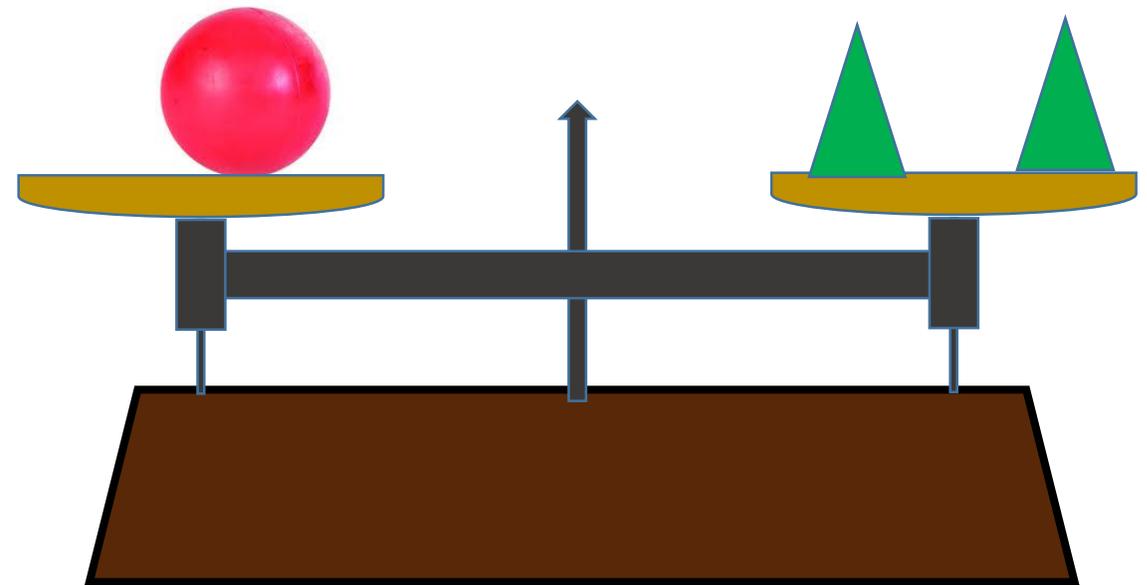

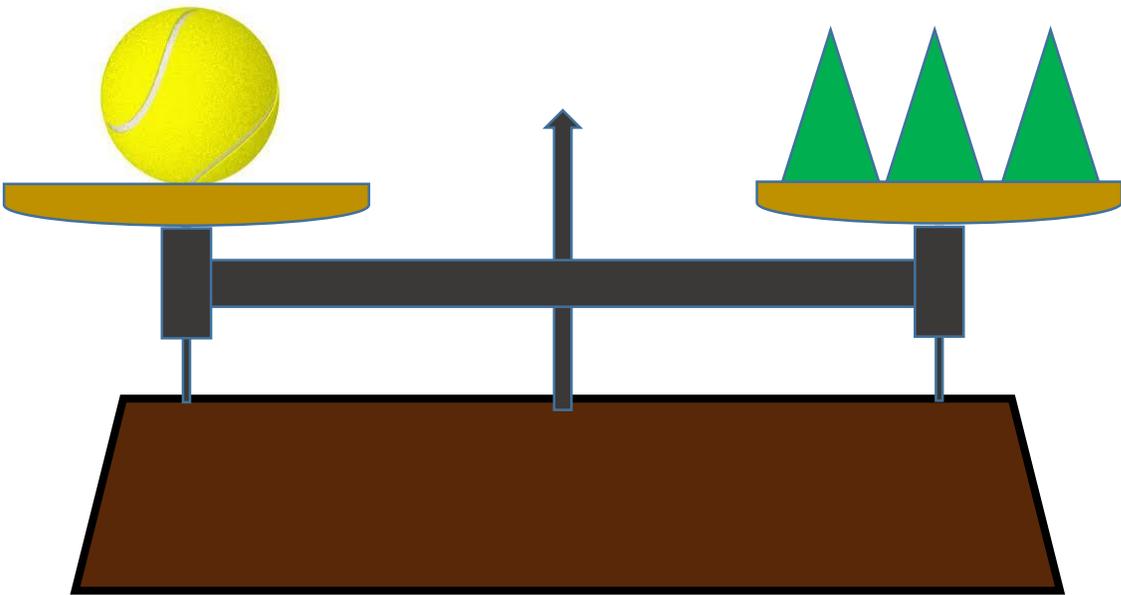

Quelle est la masse de la boule en unité cube ?

La boule pèse 8 cubes.

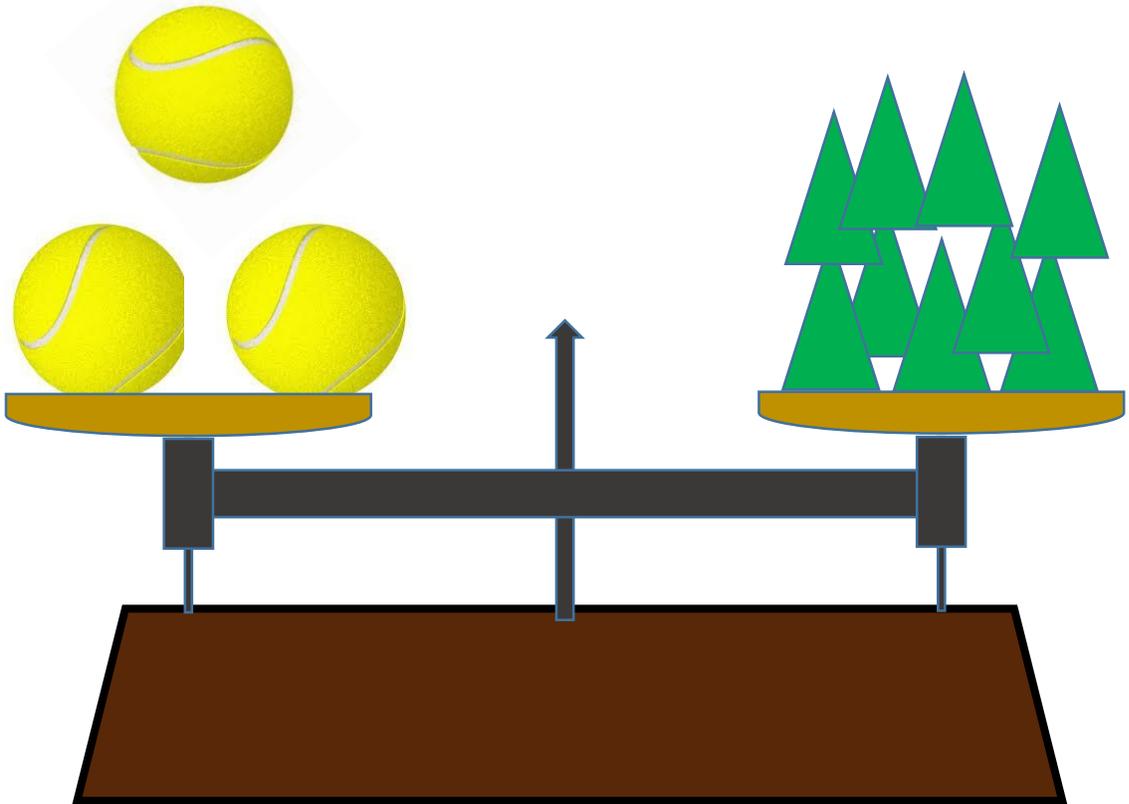

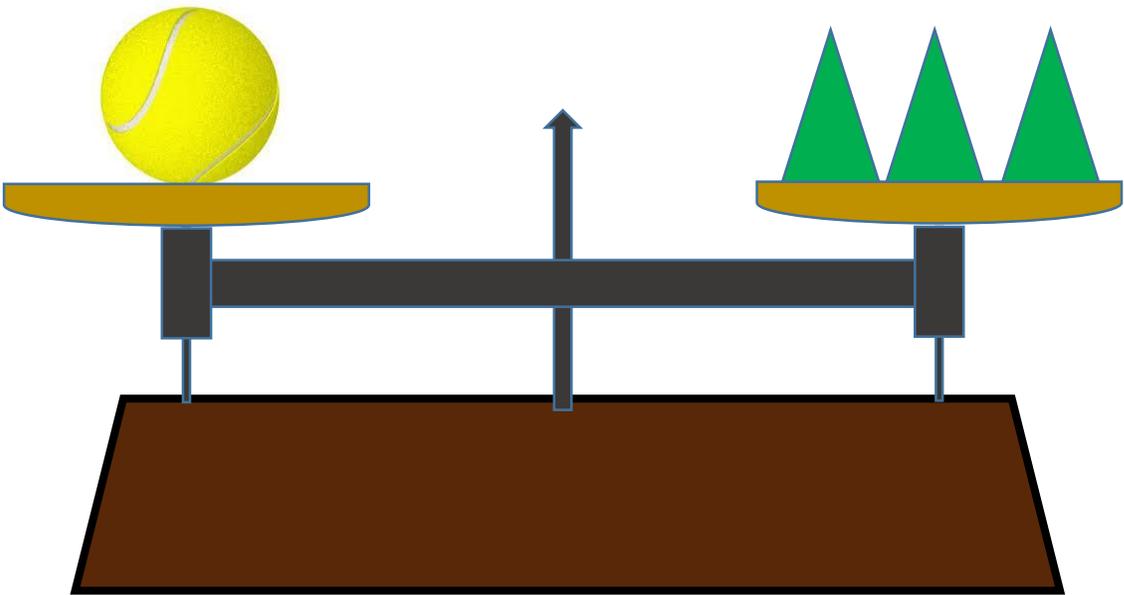

Quel est le plus lourd, le ballon
ou la boule ?

Quelle est la masse des 2 balles pesées ensemble ?

5 TRIANGLES VERTS

Quelle est la masse de 3 balles jaunes ?

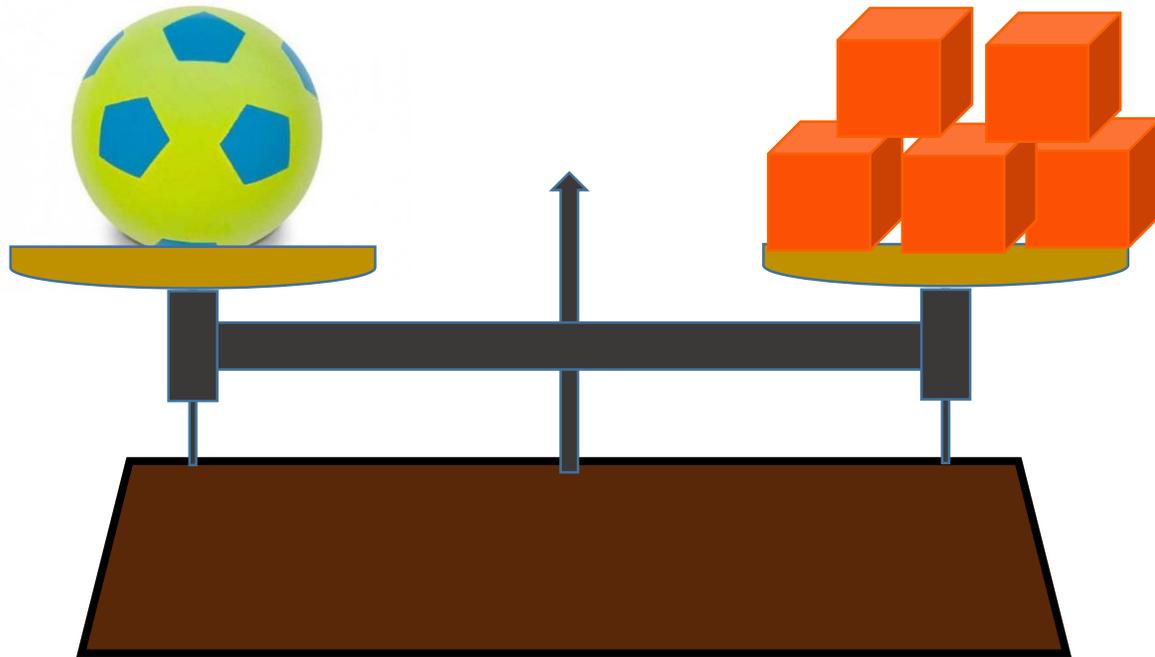

9 TRIANGLES VERTS

CLASSE CE1

Mesure de masse

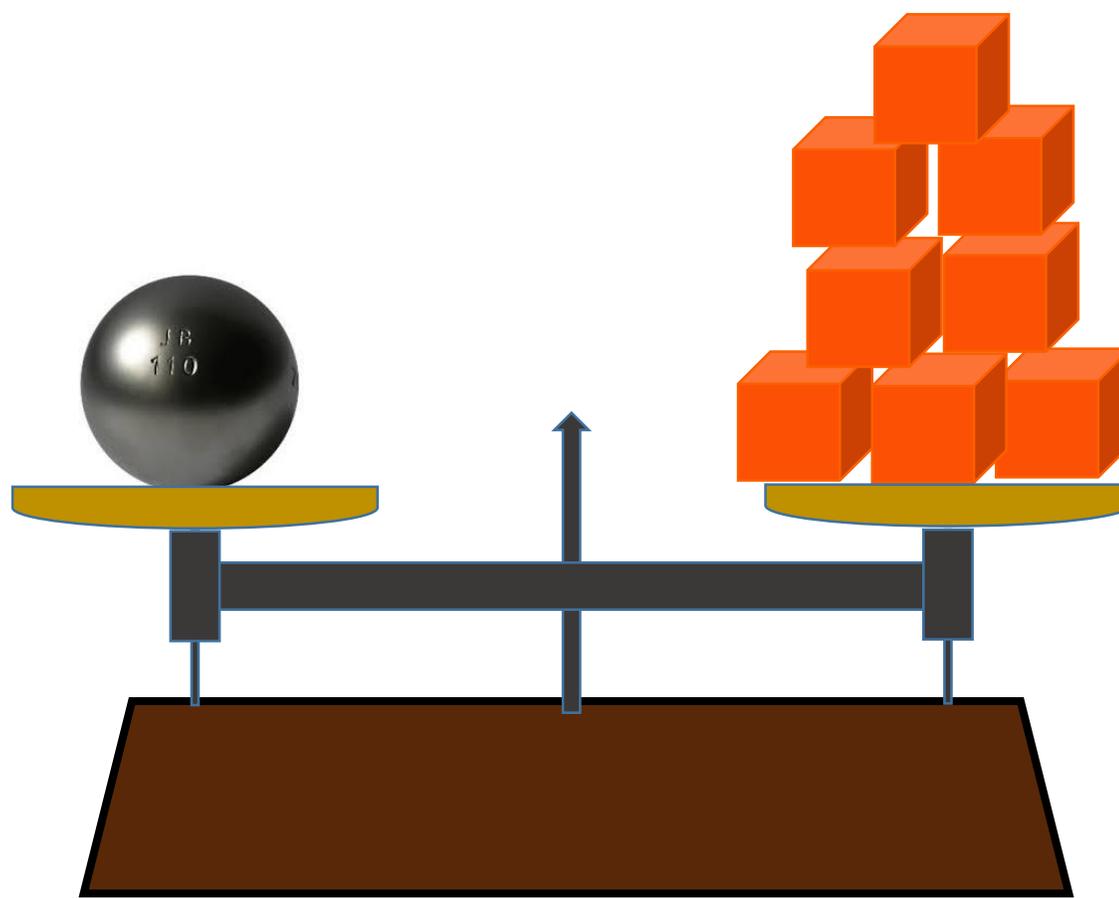

Pesée avec des unités « naturelles »

CHERCHER MODELISER REPRESENTER RAISONNER CALCULER COMMUNIQUER

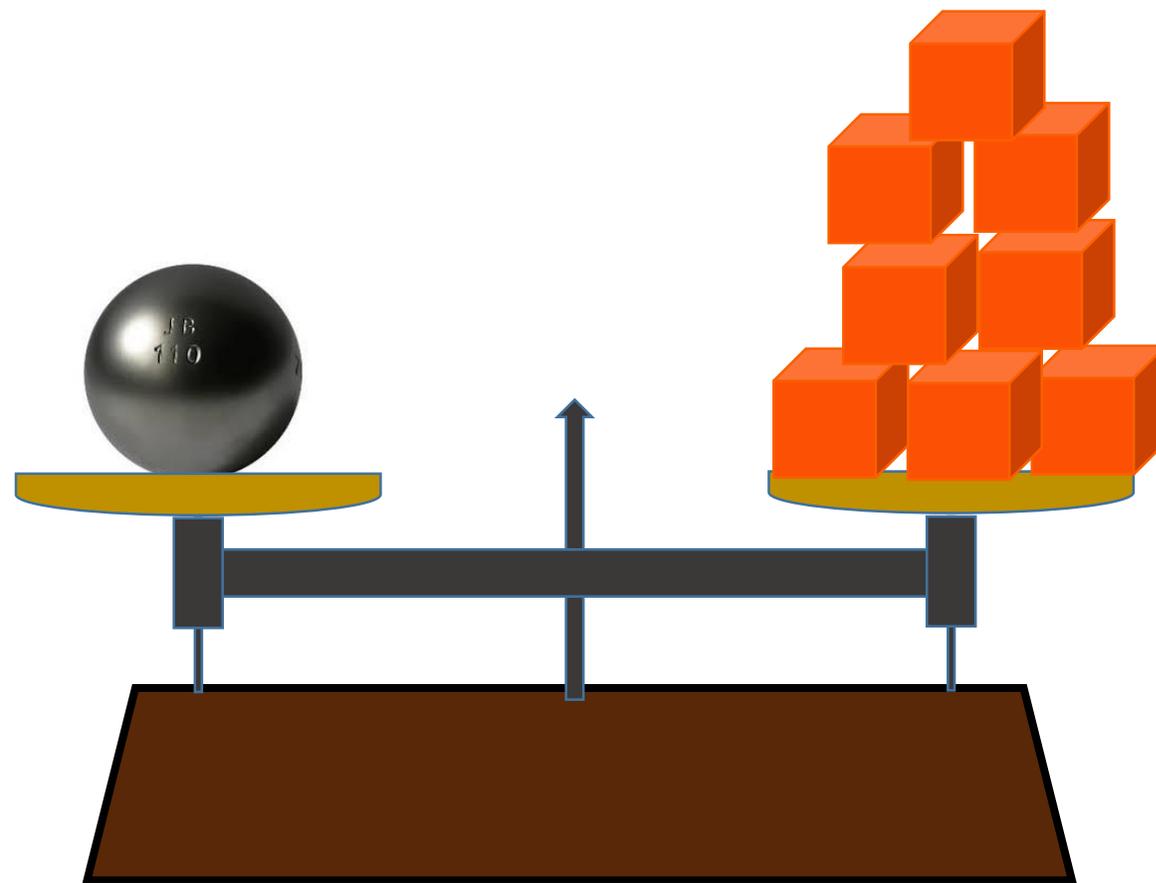

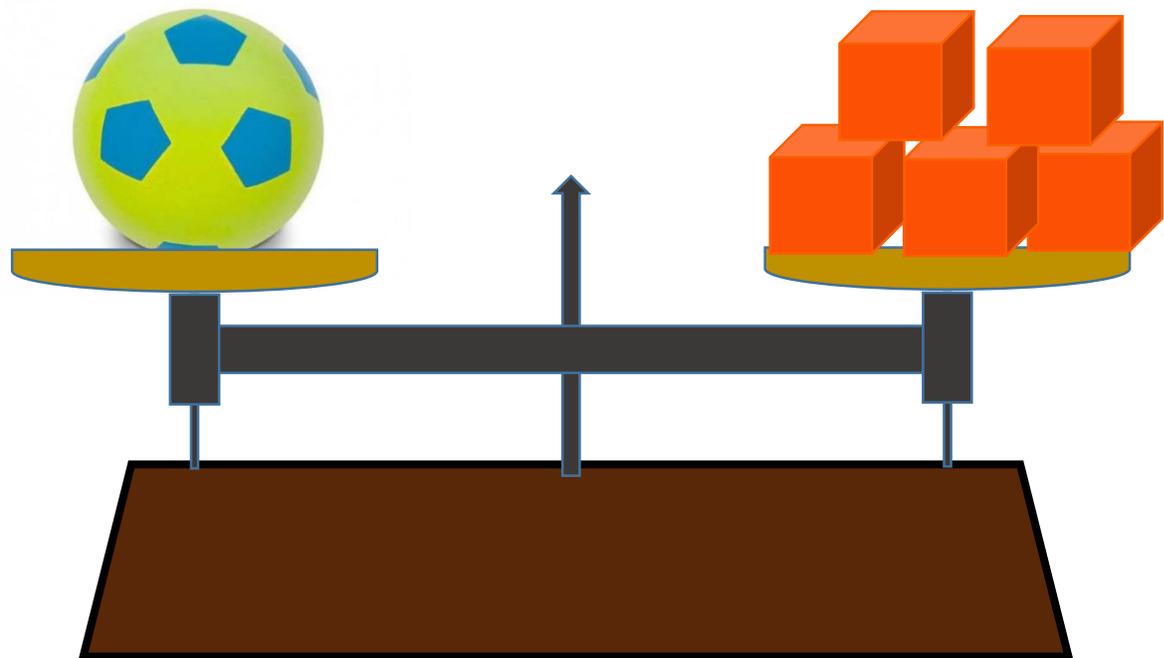

Quelle est la masse du ballon
en unité cube ?

Le ballon pèse 5 cubes.

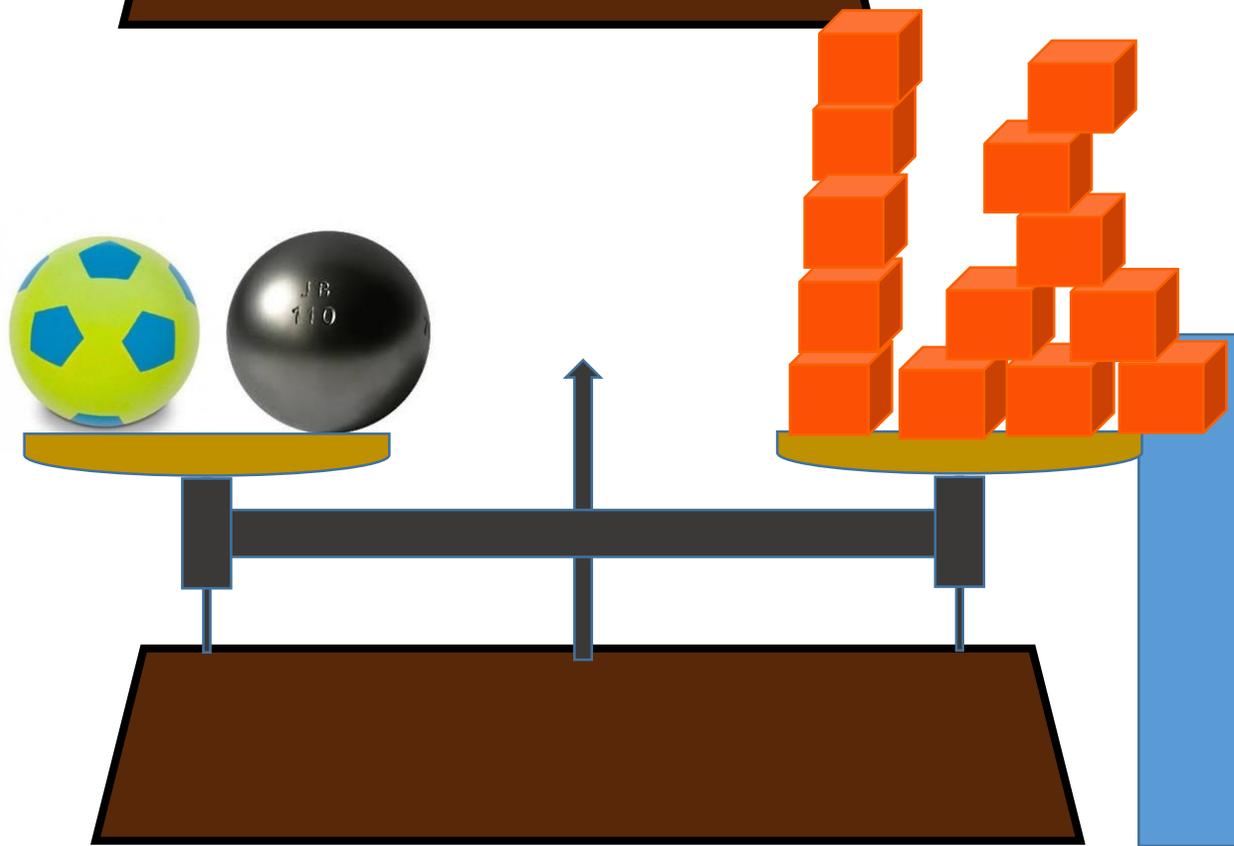

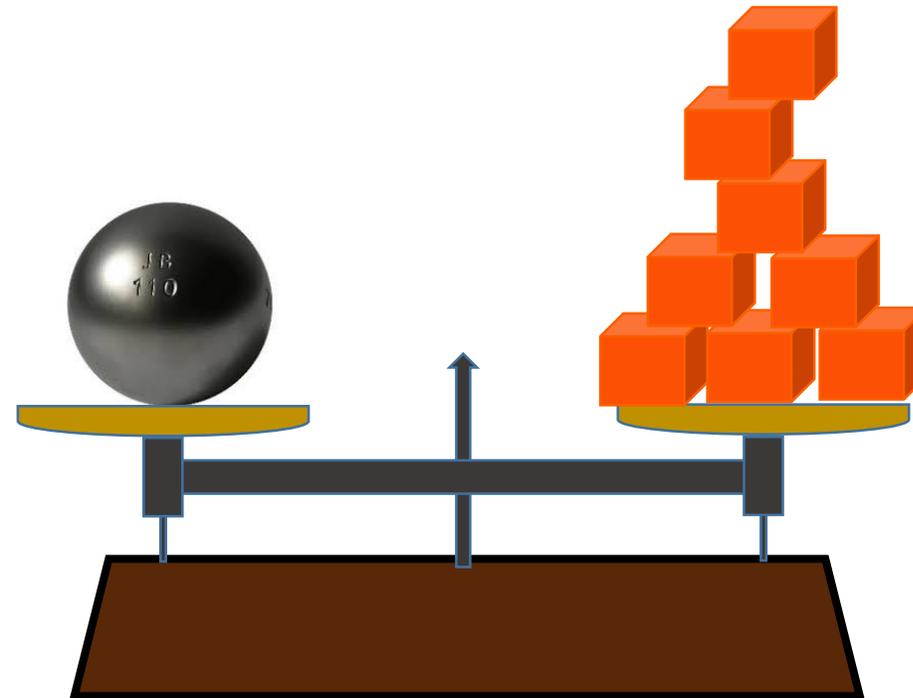

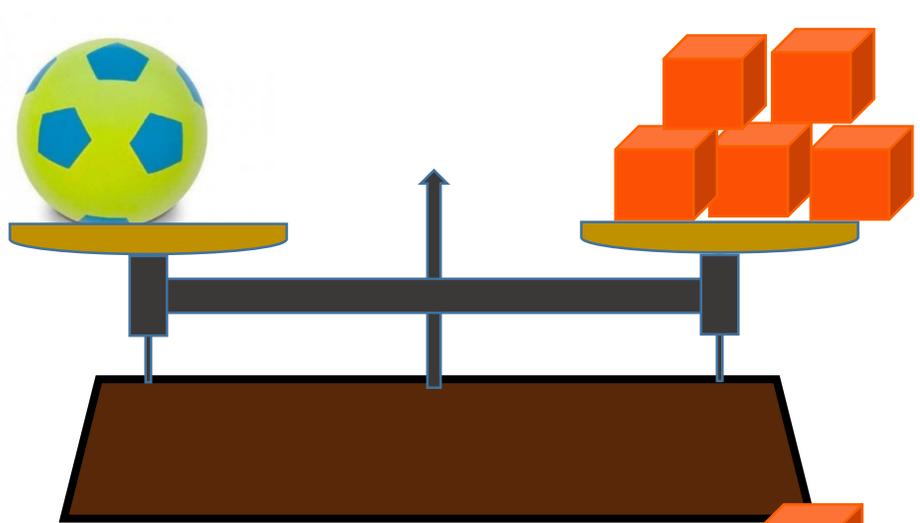

Quelle est la masse de la boule en unité cube ?

La boule pèse 8 cubes.

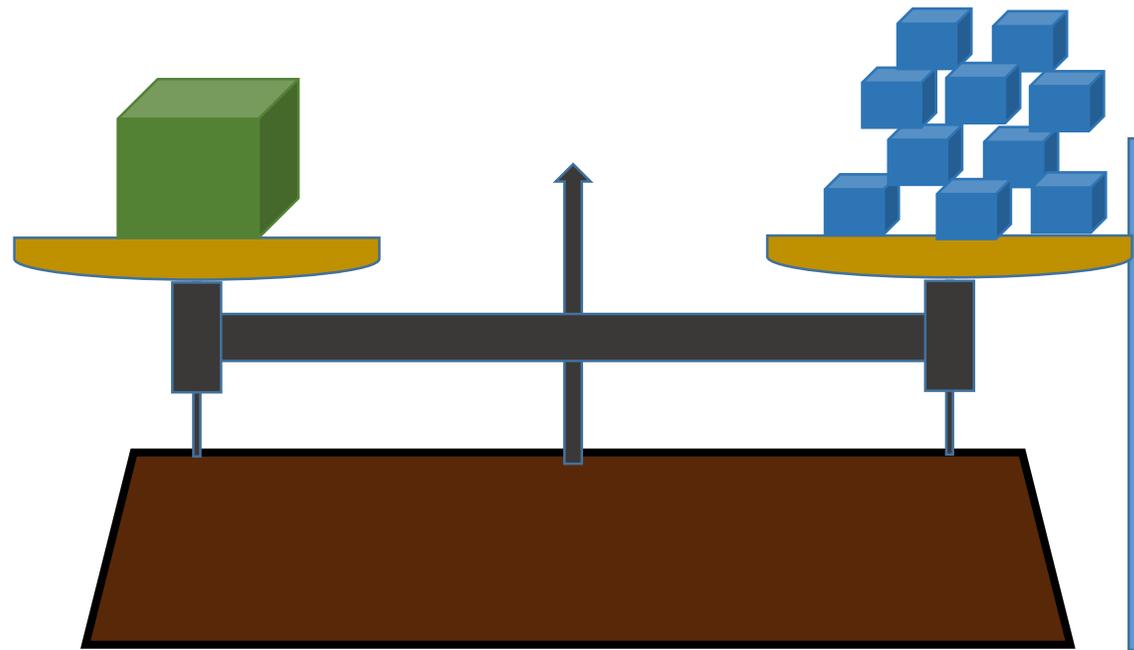

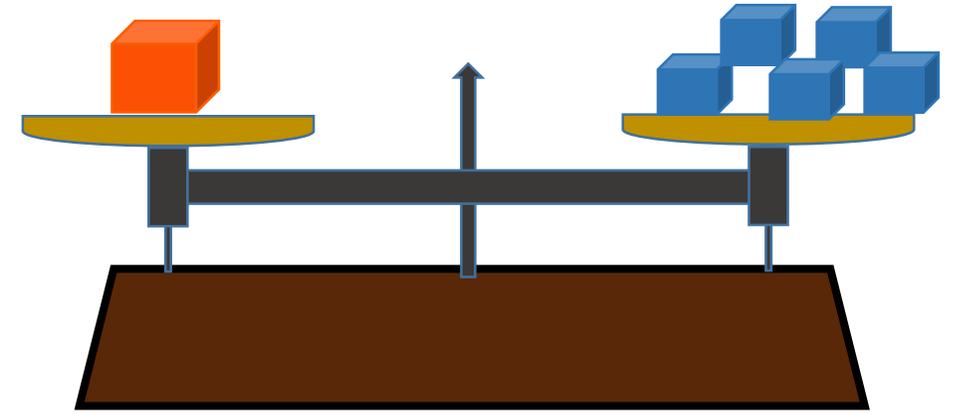

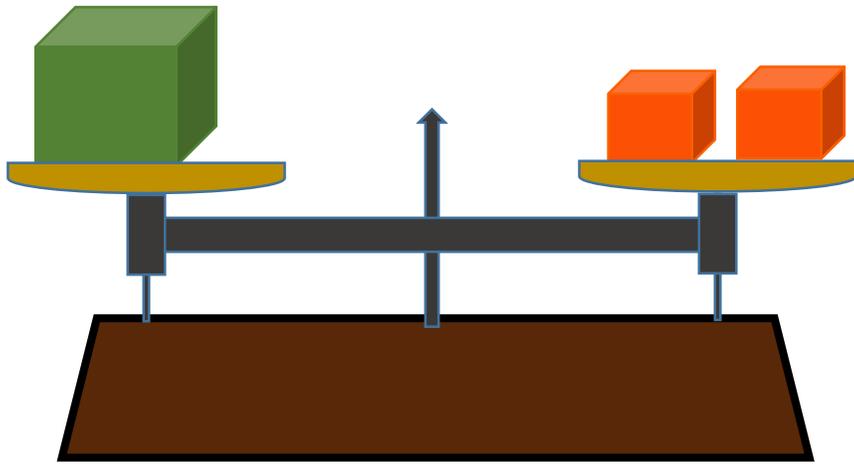

Quel est le plus lourd, le ballon
ou la boule ?

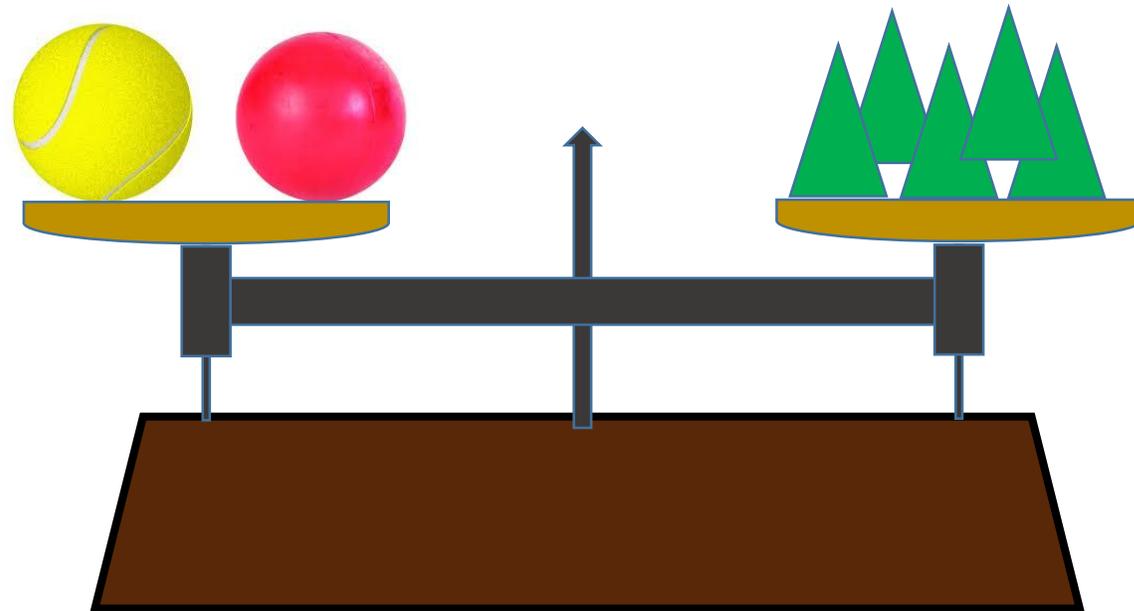

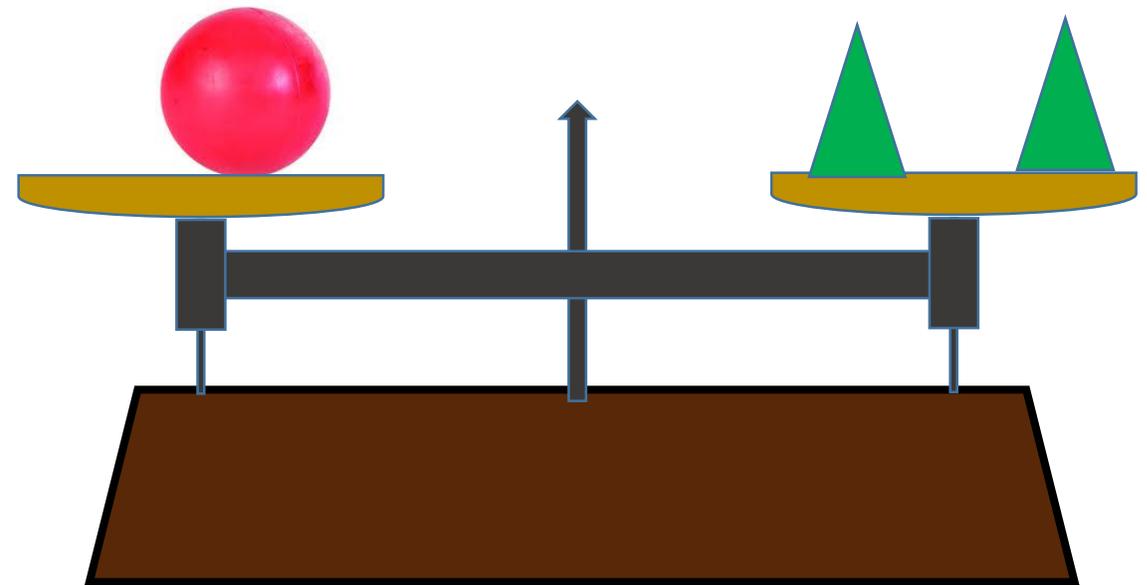

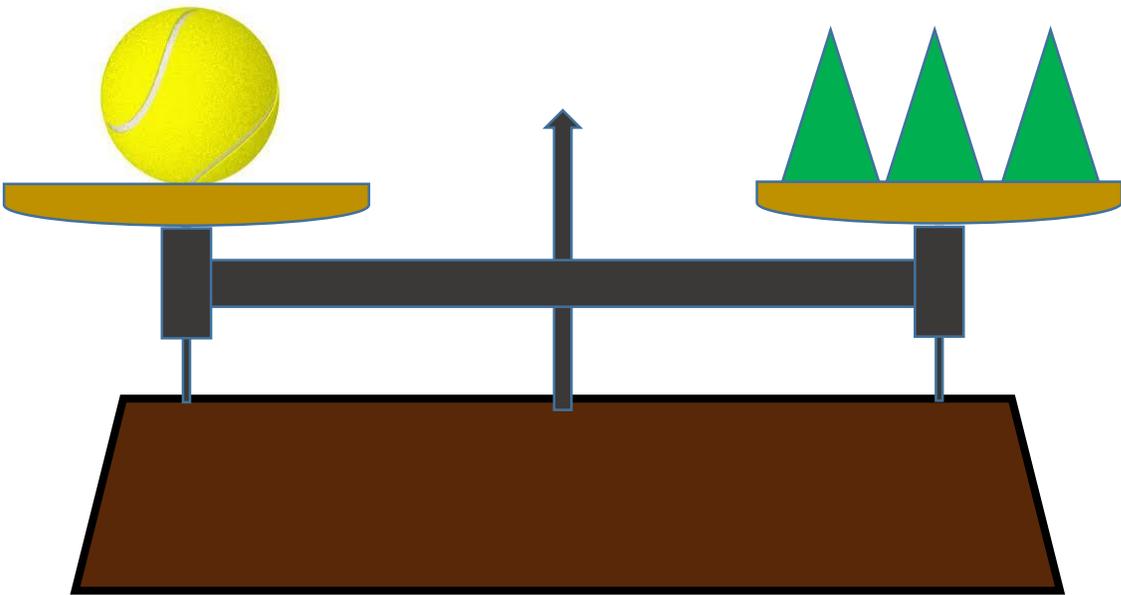

Combien faut-il mettre de cubes pour équilibrer la balance ?

13 

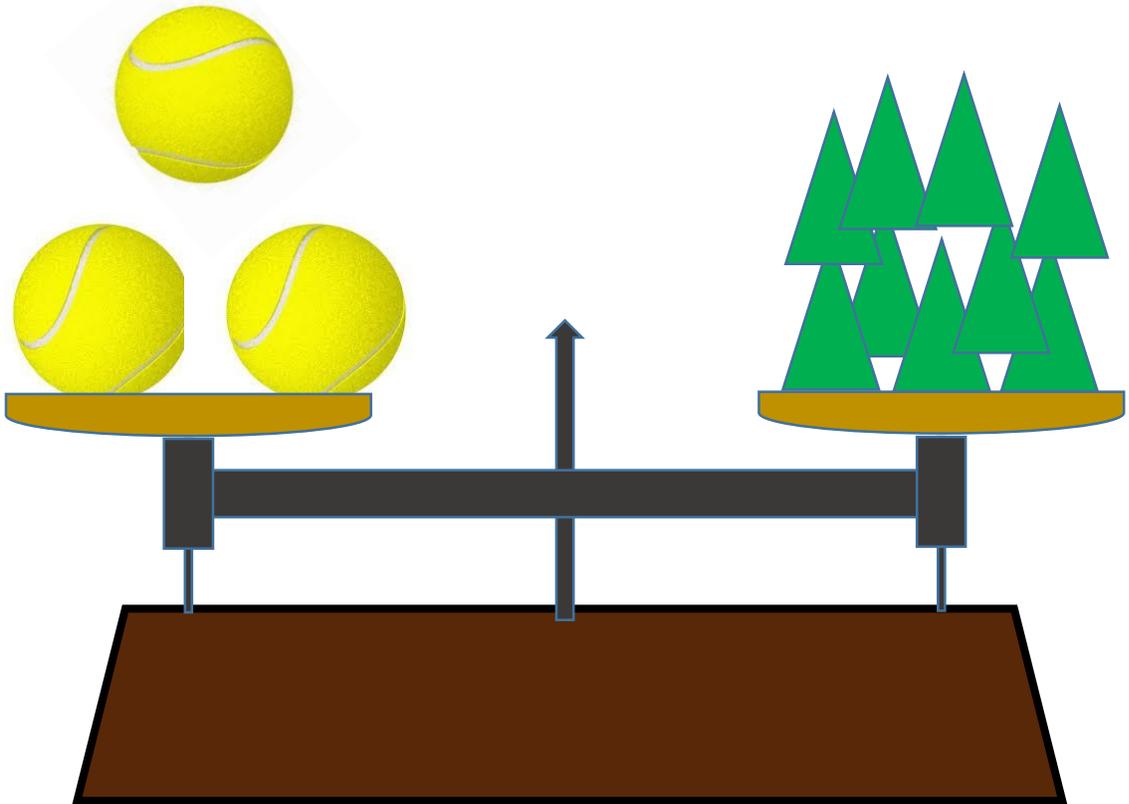

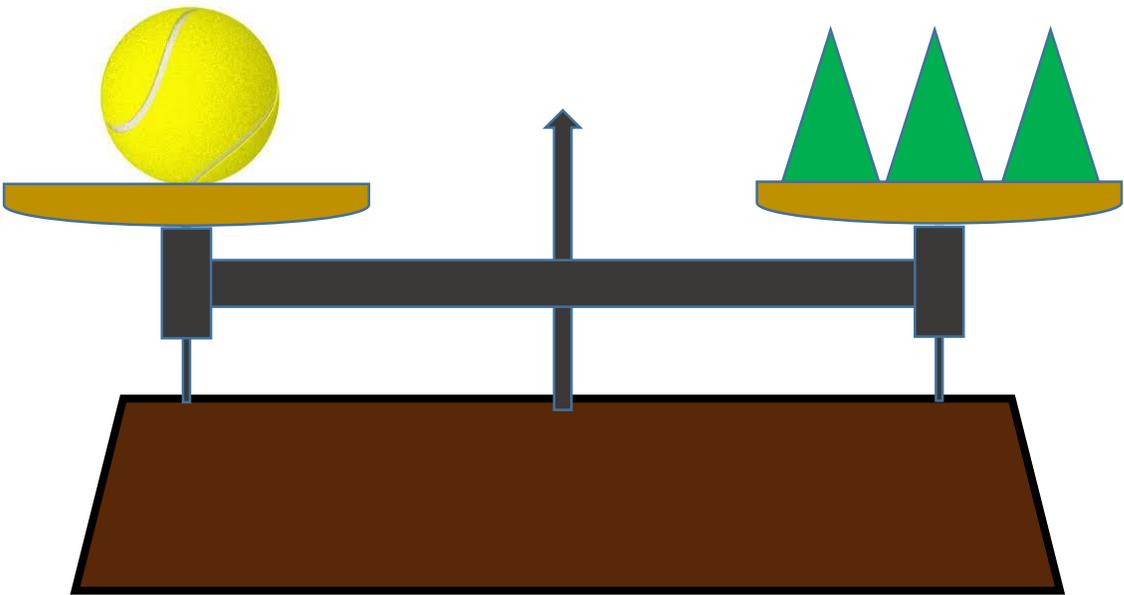

Combien faut-il mettre de cubes bleus pour équilibrer la balance ?

10 

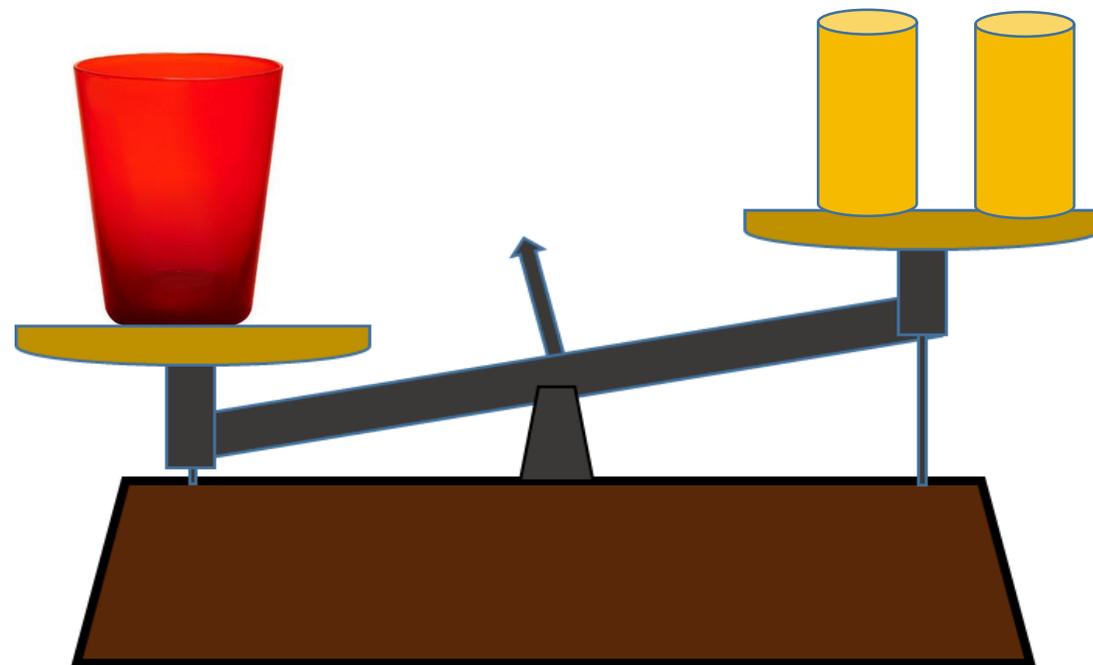

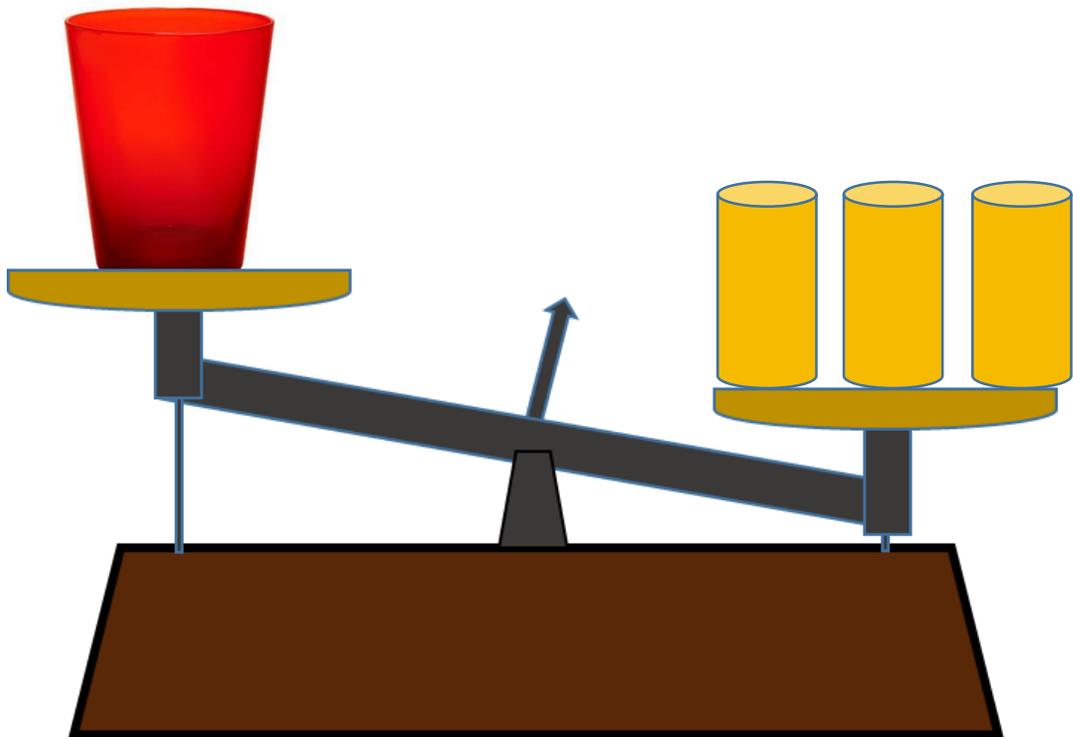

Quelle est la masse des 2 balles pesées ensemble ?

5 TRIANGLES VERTS

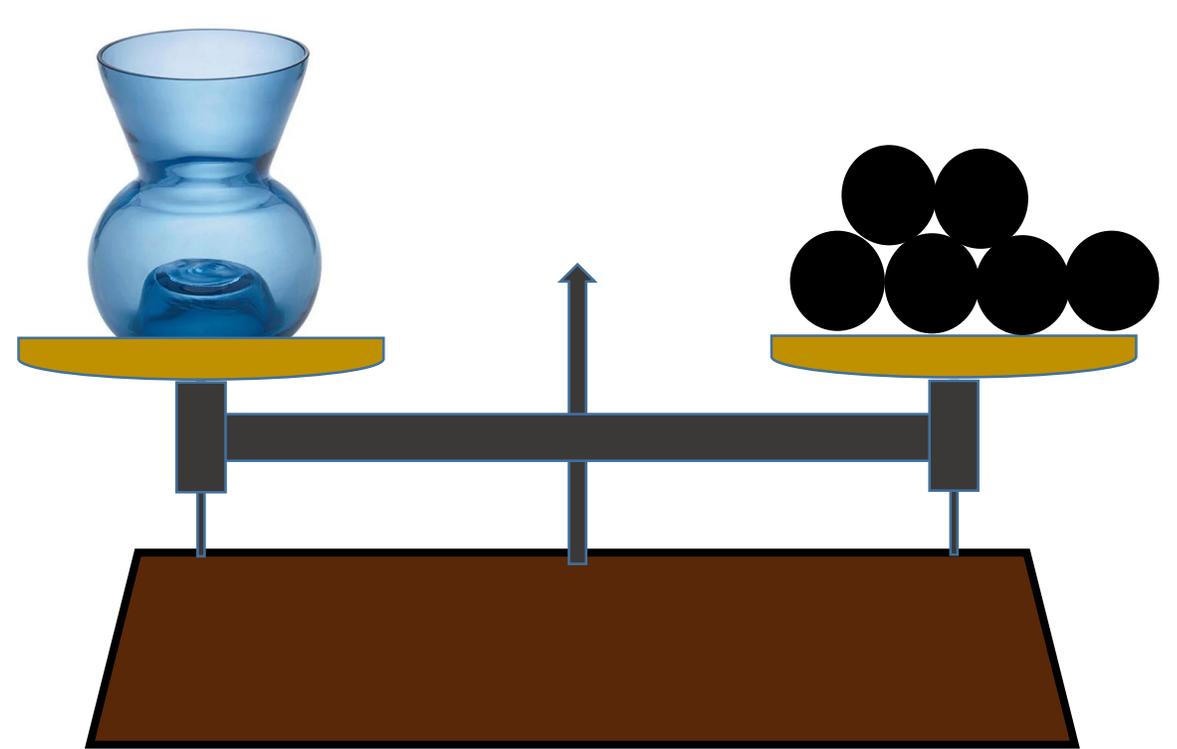

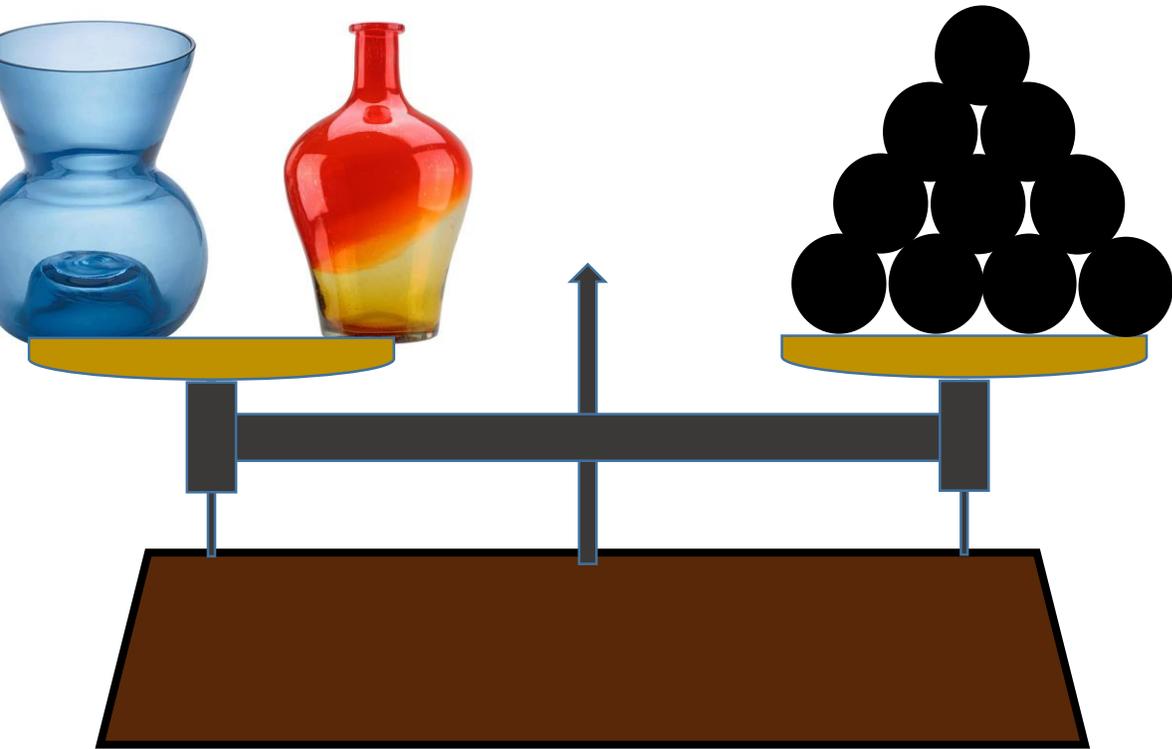

Quelle est la masse de 3 balles jaunes ?

9 TRIANGLES VERTS

Quelle est la masse de ce verre rouge ?
Le verre a une masse comprise
entre 2 et 3 cylindres jaunes.

Quelle est la masse du vase rouge ?

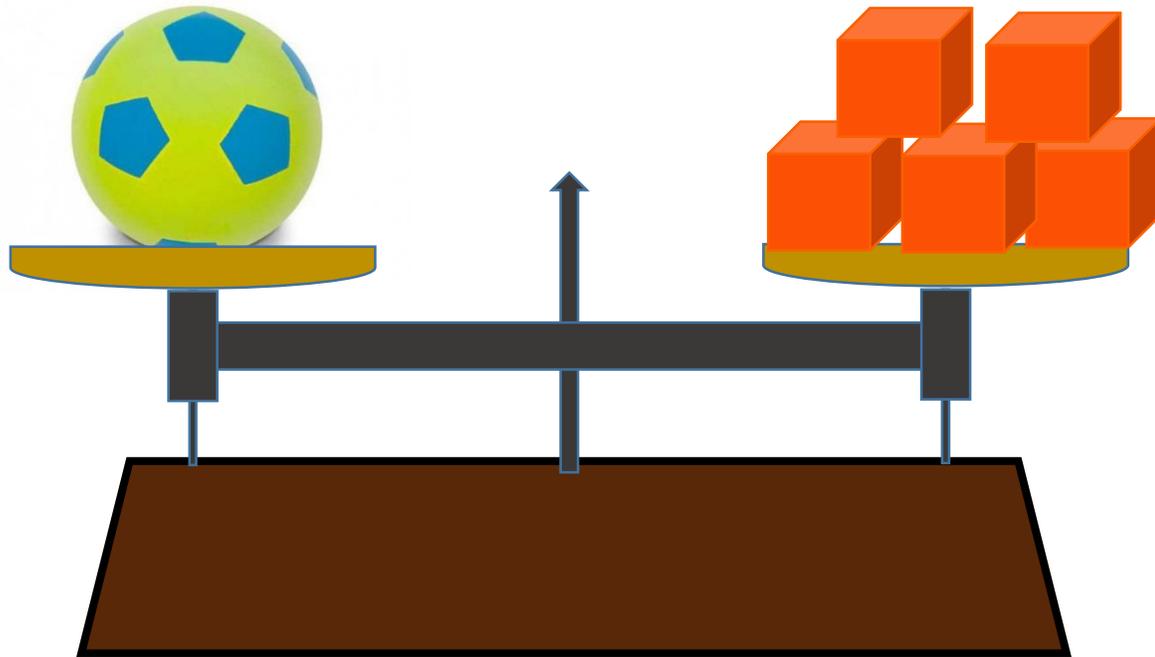

Le vase rouge pèse 4 billes noires.
