This work with its in-depth text, captions and rare images chronicles the last desperate years of the Wehrmacht Panzerwaffe. Despite a worsening strategic situation both on the Eastern Front and in the West, Hitler's Panzers and their highly motivated crews showed superior tactical abilities and killing power but such was the overall picture that this was not enough to alter the course of the war as the Allies closed remorselessly in on Berlin. Covered in this superb book are many variants, some well known and others less so including often modified, up-armoured and up-gunned models. Copious images of Tigers 1 and 11, Panzerjager, Panthers, Panzer 4's, StuG IV and III, Wespes, Hummels are provided as well as other fine examples of German engineering.
